

Floyd Lee President

Happy New Year! The gun club had a great 2018, and 2019 looks promising as well. Lots of people have bought and are still buying firearms of all types and will need a place to shoot these firearms. Knowing this, our membership has the potential to keep growing. Ammunition is plentiful and affordable, so everyone should be able to get out to the range and use their firearms.

Most of you know the club installed a security system at the various ranges. This system protects our club from break ins and vandalism by allowing us to identify those involved. We can also monitor the different ranges to make sure that members are using the range and their firearms in

a safe manner, which is crucial. It has come to my attention, as I review camera footage, that some of our members are doing things which are inappropriate for the range, primarily using the range for a bathroom. We have bathroom facilities at the club house that are clean and stocked, USE THEM! A good rule of thumb is ,if you wouldn't do it in the middle of Wal Mart; don't do it on the range!

Looking forward to seeing everyone at the club meeting at 7 pm on January 7.

Brian Callahan Pistol

Watch the calendar for a schedule of events at the pistol range. Odds are we have a match that will improve your shooting and will be fun as well.

The instructors from Training at Barren Creek will be offering monthly classes for those looking to improve their defensive firearms skills. Watch the monthly schedule for a list of classes.

Elka King Vice-President

Saturday January 27 2019

10AM to 2 PM

Intro to Defensive Carbine
